Description

Flexoklean WS is a concentrated, non-flammable, chloride ions free, low foaming and an environmentally friendly, alkaline liquid cleaner formulated for fast removal of water-based inks, grease, oil and grime in the paper converting and flexographic printing industries. It is recommended for use on flexographic printing machine units, flexoplate, anilox rolls, top print and bottom press rolls, and for circulation through anilox systems (roll, tray, ink pot and ink lines). Flexoklean eliminates alkaline residues, pigment and resins particles, chemical and mineral deposits from the machine parts. This solution is also effectively applicable for the greasy surfaces.

Technical specification

- Color Appearance: Water White to Pale Liquid
- pH @ 25°C: 8 - 9
- Hardness 8 -12 dH
- Flash Point None
- Corrosive No
- Density 998 kg/m3
- Odor Mild Solvent
- Biodegradable Yes
- **Applications**
Machine Printing units, Presses exterior cleaning, Rolls and blankets, Anilox Ceramics rolls Flexographic Polymer plates
- **Packaging Availability:** 25 kg Can, 180kg Drum and 900KG IBC Tank

About CPPEX Global — MENA

A buyer and seller platform for printing inks, pressroom chemicals, adhesives, film and paperboard, machinery and instruments — and an exclusive distributor for manufacturers across the USA, Europe, the Middle East, North Africa and South Asia.
