CATEGORY	Machine and Equipment
SUB-CATEGORY	Ink Filtration Machine
AVAILABILITY	1 in stock
MANUFACTURED	Dec 17, 2024

Description

Liquid printing ink filtration by removing impurities, ink lumps, paper particles, dust or debris plays a critical role in achieving excellent, cleaner, sharper print quality, protecting printing equipment, improve ink efficiency, optimizing over all operational efficiency but implementing a comprehensive ink filtration system also help and ensure the printers to minimize press downtime, reduce repairing cost and extending equipment lifespan with high quality end product.

Technical specification

- Machine Capacity: 200 to 250 kg/hour
- Dimension: 600×600mm
- Machine Total Height: 1050mm
- Machine Tub dia: 500mm
- Tub Height: 250mm Tub Top Side Opening Dia: 400mm Tub
- Material: Stainless Steel. AISI-304
- Outlet Height for Bucket Filling: 450mm
- Sieve Dia: 500mm and mesh size: 100-200 mesh
- Flame proof Motor/ Vibrating System: 3HP x1450rpm
- Mesh Removable with Easy Washing System
- Warranty: 365 days for any manufacturing defects from date of delivery.

About CPPEX Global — MENA

A buyer and seller platform for printing inks, pressroom chemicals, adhesives, film and paperboard, machinery and instruments — and an exclusive distributor for manufacturers across the USA, Europe, the Middle East, North Africa and South Asia.
