Description

Open head tin pails are metal containers manufactured from tin-plated steel, designed with a removable lid for easy access to contents. They are ideal for semi-viscous and solid materials where frequent opening and resealing are required. Available in various capacities, these pails come with optional linings to ensure compatibility with a wide range of chemicals and products in paint and coatings, chemical processing, food, construction and maintenance supplies, oil and lubricants industries.

Technical specification

Dimension measurement : 20L: $\Phi 297 \times 275 \times H370$ mm. : 25L: $\Phi 297 \times 275 \times H450$ mm

Sizes: 5–6 gallons

inside and outside surface: Smooth,round,no rust,non-scratching,no deformation

Crimping: Flat,no wrinkles,no burr,no tongue shape of iron under the crimping

Welding line: Flat and smooth,no smelting welding slag

Coating film: Flat and smooth,no smelting welding slag

Outside coating film adhesion: Not lower than 2

Inside coating film adhesion: MEK(2min)

Welding point: Flat,no breakdown,no discoloration,no blackened

Handle: Round and smooth,no deformation,no shedding,non-scratching

Sealing ring for lid: No burr,even texture,coincident thickness

Sealing ring weight: According to our standard

Sealing ring elongation at break: >100%

About CPPEX Global — MENA

A buyer and seller platform for printing inks, pressroom chemicals, adhesives, film and paperboard, machinery and instruments — and an exclusive distributor for manufacturers across the USA, Europe, the Middle East, North Africa and South Asia.
